

The TCSOL/TESOL Dual Certificate Summer Program Online

An intensive online summer program offering professional training in both Chinese and second language teaching. Participants may choose to earn a certificate in TCSOL, TESOL, or both.

The online program, particularly the TESOL track, will focus on English-Medium Instruction (EMI). EMI is increasingly popular worldwide with numerous institutions and nations mandating EMI, and yet professional EMI training programs—especially top-notch programs informed by theory and research like ours—remain scarce.

This program is for:

- Graduate students in language education fields
- Senior undergraduates in Chinese, English, or multilingual education
- Current language teachers seeking professional development
- Career changers or professionals gaining new skills
